

Effects of Reduced Early Post-Sprigging Nitrogen Application
on Bermudagrass Sprig Establishment

Jon E. Zalewski

Thesis submitted to the faculty of the Virginia Polytechnic Institute and State University
in partial fulfillment of the requirements for the degree of

Master of Science
In
Crop and Soil Environmental Sciences

David R. Chalmers, Ph.D. (Chairman)

Gregory Evanylo, Ph.D.

Raymond Reneau, Ph.D.

July 24, 2000
Blacksburg, Virginia

Keywords: Bermudagrass, Leaching, Nitrogen, Sprigging
