VITA

Razaina Mat Taib a daughter of Sabariah Yoep Sidi and Mat Taib Abdul Shukor was born September 2, 1970 in Malim Nawar, Perak, Malaysia. After graduating from 'Maktab Rendah Sains MARA Trendak' and 'USM Matrikulasi', the author continued her academics as an undergraduate at 'Universiti Sains Malaysia', Penang in 1990. She received a bachelor of technology with honors (second class upper division) in Polymer Technology four years later in August 1994. The author then was employed as a technologist at Sime Darby Tyre Technology Centre, Petaling Jaya before accepting a fellowship from the 'University Sains Malaysia'. In the fall 1995, she joined the wood science and forest products program as a master student under the supervision of Dr. Wolfgang G. Glasser. On July 21 1996, the author became united in marriage to Shahrudin Abd. Talib. Once completing the master degree, both the author and her spouse will return to Malaysia.
