Thanks and **aknowledgements**

I would like to thank all my teachers at WAAC, specially Marco, Paul and Jaan for their advice and support. Many thanks to Alina Ochoa, Isabel Leon, Daniel Taboada, and my father Juan Andres Damas for helping me gathering information. To all my friends at school that helped me finish my thesis, thank you, I could not have done it with out your hard work and encouragement.

Vita

JUAN R. DAMAS
