

VITA

Phyllis Ruth Eckard was born in Allentown, Pennsylvania, on July 29, 1970. She received her Bachelor of Science from Widener University in May of 1992. While attending Widener University, she completed two summer internships at the Foamex Co. in their Safety and Health Division, and the Esschem Co. in their Analytical Testing Division. After graduation, she was employed as a Contract Associate Scientist for the DuPont Merck Pharmaceutical Company in their Analytical Research and Development Division. In August of 1993, she began her graduate studies in Analytical Chemistry at Virginia Polytechnic Institute and State University, and later joined the research group of Dr. Larry T. Taylor in December of 1993. In the fall of 1995, she completed a semester internship at DuPont Merck in their Radiopharmaceuticals Division. She received her Ph.D. in analytical chemistry in February of 1998. Phyllis will join Allied Signal in their Polymers/Chemical Intermediates Division as a chemist in March of 1998.
