The National Association of Industrial and Technical Teacher Educators (NAITTE) was founded in 1937 to develop closer cooperation among educators engaged in the preparation of teachers in industrial arts, trade and industrial education, and technical education. NAITTE’s primary goal is to promote opportunities for professional growth and development. Other goals are to develop cooperation among related client groups and to serve as an authority and advocate in the preparation of professionals in the fields of industrial and technical teacher education and industrial and military training.

NAITTE members are active and dedicated professionals whose contributions to the field over the past 50 years have been significant. Members are noted for their high achievement, leadership, and influence. While most are faculty members at institutions of higher education or come from industry or military training organizations, membership is open to all persons who are interested in the theory and practice associated with the preparation of industrial and technical teachers and of industrial and military trainers.
