The opinions expressed by the journal's authors are not necessarily those of the Board of Directors, staff or members of Epsilon Pi Tau.

The scope of interests in articles and in authors is as broad as the world of technology, with members of Epsilon Pi Tau receiving the same consideration as non-member contributors. Instructions for preparing and submitting manuscripts and a detailed description of the processes we follow in review and publication preparation are contained in the guidesheets reproduced in this issue as: "Guidelines for Authors" and "Editorial Review and Procedures." Submissions that fail to comply with these will not be reviewed and will not be returned to authors.

Two issues of the journal are published each year in on-line versions. At the end of the year, the two issues are combined and published in a hard copy volume that is provided to subscribers and to all members who, having paid their fees and dues for that calendar year, are in good standing.

The Journal is currently indexed in Current Index to Journals of Education and Australia's International Vocational Education and Training and Research Database. It is available on-line at three sites:

- <http://www.ncver.edu.au>
- <http://www.EpsilonPiTauHonorary.org>
- <http://scholar.lib.vt.edu/ejournals/JOTS/> (Virginia Tech's scholarly communications project).

Separate articles or complete issues are available on microform or hard copy from University Microfilm International, 300 North Zeeb Road, Ann Arbor, MI 48106.

Printed in the United States by Gray Printing Company, Fostoria, Ohio.
