### **SUMMARY**

Aaron consistently gives the university outstanding performance and commitment to the numerous university construction projects with which he has been involved with since 2007. Aaron's technical knowledge and abilities have been instrumental in the department's ability to deliver quality new buildings for the university. His attention to detail and "get-it-done" attitude ensures timely facilitation of mitigating construction issues and ensures the end users occupy the building space on-time. Aaron's expertise in construction is apparent through his day-to-day involvement with both ICTAS I and ICTAS II and his ability to interpret plans and sequence of construction activities. His commitment to the ever changing construction industry and system within has been a huge asset to the department. He is someone the department can rely on to perform detailed constructability reviews as well as ensuring that the safety of the university population is in the forefront of our contractors. Aaron's knowledge of detailed construction systems and associated building codes enabled the project team to efficiently sequence work activities to avoid costly rework and schedule delays. Aaron has demonstrated a continued effort to ensure the university's buildings are constructed to meet the expectations of the university. His dedication to meeting the demands of managing a project schedule and coordinating with the end users are evident as the department continues to deliver high-quality and very complex buildings.
